PRINCE OF WALES'S ROYAL INDIAN MILITARY COLLEGE, DEHRA DUN.

No. 4.—(1) In connexion with the admission of candidates to the Prince of Wales's Royal Indian Military College, Dehra Dun, the following information is published for the use of intending candidates :—

The College provides a public school education on English lines for Indian and Anglo-Indian youths who desire subsequently to enter a cadet college with a view to obtaining commissions in the Indian Land Forces, the Indian Air Force or the Royal Indian Navy, and making one of those services their profession in life. The course of study at the College will, however, be such that, should a boy fail in the competitive examinations for admission to a cadet college or for entry in the Royal Indian Navy, he will be in as favourable a position for entry to a university as if he had been educated at an ordinary school

(2) Candidates will be selected from unmarried Indian and Anglo-Indian boys of—

(a) Provinces of British India.
(b) Indian States

Nominations will be made by His Excellency the Commander-in-Chief on the recommendation of the Local Government or Administration or the Political Officer, as the case may be.

(3) Candidates must have attained the age of eleven years and be under twelve years on the 1st August 1938

(4) Candidates should attach to their applications a medical certificate from the Officer Commanding a British or Indian Station Hospital or a Civil Surgeon to the effect that they are physically fit in all respects in accordance with Appendix A to this notification.

(5) The fees will be Rs. 1,500 for each school year and are liable to enhancement hereafter, if circumstances require. These fees will include tuition, messing, school servants and medical attendance of the ordinary kind, and, as initial provision, one suit of the uniform to be worn by students when at the College. Charges on account of washing of cadets' clothing and mending their clothing, boots and shoes, as well as the cost of books and stationery (which will be supplied by the College) will be met by the parents or guardians of the cadets.

In addition to the fees referred to above, the parent or guardian of a cadet will be required to deposit with the College authorities, on his entering the College, the sum of Rs. 50 which will be returned when the cadet finally leaves the College provided that all dues have been paid.

In the event of it becoming necessary for cadets to be admitted into a civil hospital, all charges incurred will be borne by the parents or guardians of the cadets.

A full term's notice is required to be given of intention to withdraw a cadet from the College. In the event of such notice not being given, the parent or guardian will be required to pay one full term's fees in lieu, unless it is considered that the circumstances in which the cadet was withdrawn are such as to call for special consideration

NOTE.—In the past, remissions of fees have been made, in certain deserving cases, in the case of Indian soldiers.

Such remissions will be discontinued until further orders, and full fees will be levied in respect of cadets who are the sons of Indian soldiers and who are admitted to the College in the future.

(6) Entry to the College will not be open to candidates who are already married

(7) Parents or guardians of candidates for admission to the College, at the time of the submission of the applications, will furnish signed declarations (in duplicate) in the following form :—

"I, _____ father / guardian of _____, a candidate for admission to the Prince of Wales's Royal Indian Military College Dehra Dun, declare that it is my desire that my son / ward should make the Indian Army, Air Force or Royal Indian Navy his profession in life.

I further declare that I have made myself acquainted with the fees payable at the Prince of Wales's Royal Indian Military College, and subsequently, at the Indian Military Academy, Dehra Dun (viz., Rs. 3,350 for a course of 2½ years); and at the Royal Air Force College, Cranwell (viz., £285-8 for a course of 2 years); and expenditure to be incurred in connexion with the training of cadets for appointment as commissioned officers of the Royal Indian Navy (viz., £250 in the case of the Executive Branch and £175 for the Engineer Branch), and that I am able and willing to pay the prescribed fees and meet the expenditure in the case of the Royal Indian Navy, as also the incidental expenses.

I declare also that—

(a) if my son / ward withdrawn from the Prince of Wales's Royal Indian Military College before appearing at an examination for admission to the Indian Military Academy, the Royal Air Force College, Cranwell, or the Royal Indian Navy,

or

(b) if, having been declared successful at one of the examinations mentioned at (a) above, does not proceed to one of the institutions with the intention of adopting the Indian Army, Indian Air Force or Royal Indian Navy as his profession, for reasons within his control or mine (on which points final decision will rest with the Government of India), I shall be required to pay the full cost which Government may have incurred on his education at the Prince of Wales's Royal Indian Military College

I declare also that my son / ward is unmarried and that he will remain a bachelor whilst at the College and until he has completed subsequently a course at the Indian Military Academy, Royal Air Force College, Cranwell, or for admission to the Royal Indian Navy.

PRESS COMMUNIQUÉ.

Fort St. George, March 12, 1938 [G.O. No. 97, Finance (Ways and Means)].

No. 24.—

It has been brought to the notice of the Government that some persons and public bodies are refusing to accept Queen Victoria rupees in payment of their dues under the misapprehension that they are no longer legal tender. The attention of the public and of all officers empowered to receive payments is invited to the following Press Communiqué issued by the Controller of the Currency on the 15th July 1937 and published on page 1378 of Part I of the *Fort St. George Gazette*, dated 3rd August 1937, which makes it clear that these rupees continue to be legal tender and cannot therefore be refused when tendered in payment :—

" *Press Communiqué.*

In accordance with a recent decision Victoria rupees are not ordinarily reissued from treasuries or from banks which transact Government business, and these rupees are thus

being gradually replaced by coins of more recent mintage. It is understood that in some districts this decision has led to a belief that Victoria rupees are no longer legal tender. This belief is entirely erroneous. *Victoria rupees are exchangeable at their full face value and there is no intention of altering the existing position in this respect.*

No. 301.—

In exercise of the powers conferred by paragraph (d) of sub-section (2) of section 241 of the Government of India Act, 1935, His Excellency the Governor is hereby pleased to cancel the Local Self-Government Department Notification No. 623, dated the 15th August 1936 published at page 445 of Part I-A of the *Fort St. George Gazette*, dated the 25th August 1936, as subsequently amended, with effect on and from the 15th March 1938.

No. 306.—

In exercise of the powers conferred by paragraph (b) of sub-section (1) and paragraph (b) of sub-section (2) of section 241 of the Government of India Act, 1935, His Excellency the Governor is hereby pleased to make the following rules:—

No. 309.—

In exercise of the powers conferred by section 2 of the Madras City Municipal, District Municipalities and Local Boards (Amendment) Act, 1937 (Madras Act XV of 1937), the Government, by notification in the *Fort St. George Gazette*, extended the term of office of the fifteen divisional councillors who were due to vacate their offices at noon on the 1st November 1937, up to the 31st March 1938, and directed that the elections to these fifteen divisional seats shall be held in the month of March 1938. The Madras City Municipal Act, 1919, was subsequently amended by Madras Act II of 1938 and under the Act as so amended the relevant portions of the electoral rolls of the Madras Legislative Assembly have to be published as the electoral rolls for the divisional seats aforesaid. It has not however been found possible to effect such publication in time for the elections to be held in March 1938. A difficulty having thus arisen in giving effect to the provisions of the Madras City Municipal Act, 1919, as amended by Madras Act II of 1938, the Government in exercise of the powers conferred on them by section 11 of the last mentioned Act hereby order that the elections to the said fifteen divisional seats shall be held in the month of April 1938 and that the term of office of the said fifteen divisional councillors shall be further extended up to the 30th April 1938.

If the tender is made by a corporation it shall be signed by a duly authorized officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required before the contract is executed to furnish evidence of its corporate existence

The earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department officers.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of rupees fifty only in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental new lump-sum contract form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 68 of the Standard Preliminary Specification of the Madras Detailed Standard Specifications will be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Division office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in the paragraph, shall entail forfeiture of the earnest money. The written agreement to be entered into between the contractor and the Government shall be the foundation of the rights of both the parties and the contract shall not be deemed to be complete until the agreement has first been signed by the contractor and then by the proper officer authorized to enter into contract on behalf of Government

5. The tenderer shall examine closely the Madras Detailed Standard Specifications, and also the Standard Preliminary specification contained therein and sign the Divisional office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender unit rates which shall be for finished work on site. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be

upon at any time between 11 a.m. and 4 p.m. on office days in the office of the Executive Engineer, Guntur division.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates to inspect the site of the proposed work. He should also inspect the quarries and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications or in the tender notice or as required by the Executive Engineer in any case shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor after examination of the source of materials defined in the Descriptive Specification sheet is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials subject to the approval of the Executive Engineer.

The Government will not however alter acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misunderstood the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of seigniorage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work,
(2) carriage,
(3) construction plant;
(4) water and lighting,
(5) cleaning up during progress and for delivery,
(6) accidents;
(7) delays,
(8) particulars of payment; and
(9) responsibilities and liabilities of contractor.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Guntur division, or as set forth in the conditions of contract. The tenderer will however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees (Indian) and in nos of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract such lump sum agreeing with the total amount of Schedule "A." The schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or corrections of figures. Corrections where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognised, and if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time as will be calculated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor

Period after date of commencement.	Percentage of work executed (based on contract lump-sum amount).
Three months	30
Six months	100

13. No part of the contract shall be sublet, without written permission of the Executive Engineer nor shall transfer be made by power of attorney authorising others to receive payment on the contractor's behalf.

14. If further necessary information is required the Executive Engineer of the division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

15. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

16. The qualification of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenders should therefore state in clear terms whether they employ such technical staff, and if so, to give the qualifications of such staff and the extent to which they will be employed on the work.

17. No payment will be separately made for taking water from foundation and forming protective bunds clearing jungle at site and diversion of drain required during execution. The rates quoted by the tenderer must include the abovementioned charges.

18. The tenderer may however mention an earlier date which fact will be taken into consideration and this earlier date will thereafter be considered as the date fixed for completion of the work.

TENDERS will be received by the Superintending Engineer, Trichinopoly Circle, at his office at Trichinopoly, up to 4 p.m. on 21st April 1938 for the work of constructing Admission and Laboratory Block in the New Headquarters Hospital, Madura.

The tender should be in the prescribed form obtainable from the Superintending Engineer's office. The tenders will be opened by the Superintending Engineer, Trichinopoly Circle, at 3 p.m. on 22nd April 1938.

2. Tenders must be submitted in sealed covers, and should be addressed to the Superintending Engineer, Trichinopoly Circle, the name of the tenderer and the name of work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorised officer who shall produce with his tender, satisfactory evidence of his authorisation. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of rupees one thousand into the branch of the Imperial Bank at India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of Revenue Deposits on behalf of the Executive Engineer of the Ramnad Division and enclose with his tender the challan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorised by the Executive Engineer by suitable endorsement on the challan. The earnest money will not be received in cash or currency notes by the Public Works Department Officers save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denominations may be.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Superintending Engineer's office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Superintending Engineer of acceptance of his tender make a security deposit of rupees one thousand in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 66 of the standard preliminary specification of the Madras Detailed Standard Specifications shall be retained as security for the due fulfilment of the contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to attend the Superintending Engineer's office on the date fixed in the written intimation from such office or to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money. The written agreement to be entered into between the contractor and the Government shall be the foundation of the rights of both the parties and the contract shall not be deemed to be complete until the agreement has first been signed by the contractor and then by the proper officer authorised to enter into contracts on behalf of Government.

5. The tenderer shall examine closely the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the Divisional Office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender; and rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days in the office of the Superintending Engineer, Trichinopoly Circle. A copy of the set of contract documents can also be had on payment of Rs. 10 for each set.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification." Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other source defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in the tender notes, or as required by the Executive Engineer in any case, shall be submitted to the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after commencement of the source of materials defined in the Descriptive Specifications Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Superintending Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead as for any other reason, in case the contractor is found later on to have misjudged the materials

available. Attention of the contractor is directed to the standard "Preliminary Specifications" regarding payment of sequestrance bills, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specifications" dealing with—

(1) Test inspection and rejection of defective materials and work.
(2) Carriage.
(3) Construction plant.
(4) Water and lighting.
(5) Cleaning up during progress and for delivery.
(6) Accidents
(7) Delays.
(8) Particulars of payment.

The contractor should closely peruse all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies the tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of the schedule and that the schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Ramnad Division, or as set forth in the conditions of contract. The tenderer will however, base his lump-sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule and the rates should be in rupees, annas and in sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract such lump sum agreeing with the total amount of Schedule A. This schedule accompanying the lump-sum tender shall be neatly written legibly and free from erasures, overwritings or corrections of figures. Corrections, where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for, shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognised; and, if any such alterations are made, the tender will be void.

16 The Superintending Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

17 The qualifications of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenderers should therefore state in clear terms, whether they employ such technical staff, and if so, to give the qualifications of such staff and the extent to which they will be employed on the work.
